Foreword V

Preface XVII

List of Contributors XXV

Part One Context 1

1 The Lived Experience of Chronic Pain: Evidence of People's Voices 3

Cary Brown

1.1 Introduction 3

1.2 The Perspective of People with Pain 5

1.2.1 Unfiltered Voices 5

1.2.2 Literary Routes to the Lived Experience of Pain 7

1.2.3 Lived Experience of Pain in Scholarly Publications 7

1.2.4 The Visual Arts 8

1.2.5 Pain Voices in Electronic Media 10

1.3 Quality 11

1.4 Barriers to Accessing the Evidence 12

1.5 Consequences of Unvoiced Pain 13

1.6 Dealing with the Evidence 14

1.7 Summary 15

2 History and Definition of Pain 19

Harold Merskey

2.1 Words for Pain 20

2.2 "Pain" in Medicine 22

2.2.1 1800–2000 23

2.3 Defining Pain 24

3 The Descriptive Epidemiology of Chronic Pain 29

Donald Schopflocher and Christa Harstall

3.1 How Prevalent is Chronic Pain? 29

3.1.1 Systematic Reviews 29

3.1.1.1 Studies That Used the IASP Definition of Chronic Pain 32

Chronic Pain: A Health Policy Perspective

Edited by S. Rashiq, D. Schopflocher, P. Taenzer, and E. Jonsson

Copyright © 2008 WILEY-VCH Verlag GmbH & Co. KGaA, Weinheim

ISBN: 978-3-527-32382-1

3.1.1.2	Studies That Used the ACR Definition of Chronic Widespread Pain	32
3.1.1.3	Studies in Children and Elderly Populations	33
3.1.2	Recent Studies	33
3.1.3	Conclusions	33
3.2	Chronic Pain in Canada and Alberta	34
3.2.1	Conclusions	39
4	The Economics of Chronic Pain	41
	<i>Ceri J. Phillips and Donald Schopflocher</i>	
4.1	Introduction	41
4.2	Direct Costs of Chronic Pain	42
4.3	Indirect Costs of Chronic Pain	43
4.4	The Wider Impact of Chronic Pain	45
4.5	Pain Management Strategies	45
4.5.1	Effectiveness	46
4.5.2	Efficiency	46
4.5.3	Equity	47
4.6	Summary and Conclusion	47
5	Ethical Considerations in the Treatment of Chronic Pain	51
	<i>Dick Sobsey and Derek Truscott</i>	
5.1	Scope and Context	51
5.2	Overview of the Literature on Chronic Pain and Ethics	53
5.2.1	Beneficence	53
5.2.2	Nonmaleficence	53
5.2.3	Autonomy	54
5.2.4	Justice and Social Responsibility	55
5.2.5	Integrity	55
5.3	Interacting Principles	56
5.4	Pain, Public Policy, and Ethics	56
6	Pathophysiology of Chronic Pain	59
	<i>James L. Henry</i>	
6.1	Nociception: How It Works	60
6.2	Chemical Mediators of Pain	62
6.3	Contribution of Non-Neuronal Cells to Nociception	63
6.4	Basic Science Contributions to Pain Management	63
6.5	Impact of Policy on Knowledge Generation	65

Part Two Treatment 67

- 7 Why Does Pain Become Chronic? 69**
Joel Katz, Colin J. L. McCartney, and Saifudin Rashiq
- 7.1 Introduction 69
- 7.2 Chronic Post-surgical Pain 70
- 7.2.1 Epidemiology of CPSP 70
- 7.2.2 Surgical Factors Associated with CPSP 70
- 7.2.3 Patient-Related Factors 72
- 7.2.4 Preemptive/Preventive Analgesia 73
- 7.3 Chronic Pain outside the Surgical Context 75
- 7.4 Summary 77
- 7.5 Conclusions 78
- 7.6 Health Policy Implications and Recommendations 78
- 8 What Chronic Pain Looks Like to the Clinician 85**
Chris Spanswick
- 8.1 Introduction 85
- 8.2 The Typical Patient 85
- 8.3 Common Pain Conditions 86
- 8.3.1 Spinal Pain 86
- 8.3.2 Neck Pain 86
- 8.3.3 Whiplash 87
- 8.3.4 Low Back Pain 87
- 8.3.5 Sciatica 88
- 8.3.6 Failed Back Surgery Syndrome 88
- 8.3.7 Arthritis 89
- 8.3.8 Fibromyalgia and Widespread Pain 90
- 8.3.9 Neuropathic Pain 90
- 8.3.10 Diabetic Neuropathy 91
- 8.3.11 Trigeminal Neuralgia (Tic Douloureux) 91
- 8.3.12 Post Herpetic Neuralgia 92
- 8.3.13 Complex Regional Pain Syndrome 93
- 8.3.14 Co-morbidities 94
- 8.4 How Do Patients Present? 94
- 8.4.1 Worry/Anxiety 94
- 8.4.2 Sadness/Depression 95
- 8.4.3 Anger/Frustration 95
- 8.4.4 Fatigue/Exhaustion/Sleep Disorders 95
- 8.4.5 Physical/Social Functioning 96
- 8.4.6 Coping 96
- 8.5 Why Do Patients Consult? 97
- 8.6 Why Do Family Physicians Refer Patients to Specialists? 97
- 8.6.1 Diagnosis 97

- 8.6.2 Treatment 97
- 8.6.3 High Levels of Distress 98
- 8.6.4 Problem Medication Use 98
- 8.6.5 Help with Patient Management 98
- 8.6.6 Other Obstacles to Managing Pain in the Community 98

9 Drug Treatment for Chronic Pain 101

Mary Lynch

- 9.1 Scope and Context of the Issue 101
- 9.2 The Evidence for Prescription Drug Use in the Management of Chronic Pain 102
- 9.3 Specific Drugs 103
 - 9.3.1 NSAIDs and Acetaminophen 103
 - 9.3.2 Tricyclic Antidepressants 103
 - 9.3.3 Other Antidepressants 104
 - 9.3.4 Anticonvulsants 105
 - 9.3.4.1 Gabapentin 105
 - 9.3.4.2 Pregabalin 107
 - 9.3.4.3 Carbamazepine 107
 - 9.3.4.4 Oxcarbazepine 107
 - 9.3.4.5 Lamotrigine 108
 - 9.3.5 Opioids 108
 - 9.3.6 Cannabinoids 109
 - 9.3.7 Muscle Relaxants 111
 - 9.3.8 Topical Analgesics 112
 - 9.3.8.1 Topical NSAIDs 112
 - 9.3.8.2 Capsaicin 112
 - 9.3.8.3 Topical Tricyclic Antidepressants and Ketamine 112
 - 9.3.8.4 Topical Lidocaine Patch 113
 - 9.3.9 Other Analgesic Agents 113
- 9.4 Conclusions 113
- 9.5 Implications for Policy Makers, Patients, Families and Communities 114

10 Non-Drug Treatments for Chronic Pain 121

Alexander J. Clark

- 10.1 Introduction 121
- 10.2 Acupuncture 122
- 10.3 Cognitive Behavioral Therapy (with Bruce Dick) 122
- 10.4 Exercise 123
- 10.5 Laser Therapy 123
- 10.6 Manipulation and Mobilization 124
- 10.7 Massage Therapy 124
- 10.8 Occupational and Physical Therapy 125
- 10.9 Relaxation Therapy 125

10.9.1	Thermotherapy (Application of Heat and/or Cold)	125
10.9.2	Transcutaneous Electrical Nerve Stimulation	126
10.10	Ultrasound	126
10.11	Conclusion	127
11	Interventional Treatments for Chronic Pain	131
	<i>Alexander J. Clark and Christopher C. Spanswick</i>	
11.1	Cervical and Lumbar Epidural Injections	132
11.2	Trigger Point Injections	133
11.3	Intravenous Lidocaine Infusion	133
11.4	Intravenous Regional Sympathetic Blockade	134
11.5	Paravertebral/Paraspinal Blocks	134
11.6	Cervical/Lumbar Facet Joint Injection and Radiofrequency Denervation	134
11.7	Sympathetic Blockade	135
11.7.1	Stellate Ganglion Block	135
11.7.2	Lumbar Sympathetic Block	135
11.7.3	Coeliac and Splanchnic Nerve Blocks	136
11.8	Spinal Cord Stimulation	136
11.9	Intrathecal Medication Pumps	137
11.10	Conclusion	137
12	Multidisciplinary Pain Clinic Treatment	141
	<i>Eldon Tunks</i>	
12.1	What Constitutes “Multidisciplinary” Care for Chronic Pain?	142
12.2	Chronic Low Back Pain	142
12.2.1	Behavior Therapy	142
12.2.2	Exercise and Other Physical Modalities	143
12.2.3	Patient Education and Back Schools	143
12.2.4	Multidisciplinary Treatment (but Without Workplace Intervention)	143
12.3	Neck Pain	144
12.3.1	Patient Education	144
12.3.2	Active versus Passive Treatment	144
12.4	Headache	144
12.5	Temporomandibular Joint Pain and Dysfunction	145
12.6	Fibromyalgia/Chronic Fatigue Syndrome	146
12.7	Unspecified or Mixed Pain Disorders	146
12.7.1	Various Behavioral and Cognitive-Behavioral Treatments	146
12.7.2	Patient Education and Back Schools	147
12.7.3	Multidisciplinary Treatment	147
12.8	Cost-Effectiveness of Multidisciplinary Pain Management Programs	148
12.9	Recommendations	149

13	Complementary and Alternative Medicine Approaches to Chronic Pain	153
	<i>Mark A. Ware</i>	
13.1	Introduction	153
13.2	Why Do Pain Physicians Need to Know about CAM?	154
13.3	Epidemiology of CAM in Chronic Pain	155
13.3.1	Classification of CAM	155
13.3.2	First Nations Healing Traditions and Pain	156
13.4	Clinical Evidence of Safety and Efficacy	157
13.4.1	Other Trials of CAM for Chronic Pain	159
13.4.1.1	Acupuncture	159
13.4.1.2	Chiropractic	159
13.4.1.3	Energy Therapy	159
13.4.1.4	Meditation/Relaxation	159
13.4.1.5	Movement Therapies	159
13.4.1.6	Osteopathy	160
13.5	Safety Concerns	160
13.5.1	Natural Health Products	160
13.5.2	Manipulation Therapies	160
13.5.3	Acupuncture	161
13.6	Research on CAM: A Matter of Control?	161
13.7	Policy Implications	161
13.7.1	Cost Effectiveness	161
13.7.2	Regulating CAM in Canada	162
13.7.3	Teaching CAM in Medical Education	162
13.7.4	Towards an Integrative Pain Medicine?	162
13.8	Conclusions	162
14	Chronic Pain Self-Management	167
	<i>Michael Hugh McGillion, Sandra LeFort, and Jennifer Stinson</i>	
14.1	Self-Management: Brief History and Overview	168
14.2	The Arthritis Self-Management Program	169
14.3	The Chronic Pain Self-Management Program	170
14.4	The Chronic Angina Self-Management Program	172
14.5	Canadian-Based Pain Self-Management Research in Children	174
14.6	Summary and Policy Implications	176
Part Three Special Challenges in Chronic Pain Management		183
15	Chronic Pain in Persons with Mental Health Issues	185
	<i>Charl Els</i>	
15.1	Background	185
15.2	The Prevalence of Psychopathology with Chronic Pain	186
15.3	The Systemic Barriers to Access	188
15.4	Pharmacotherapeutic Considerations	189
15.5	Proposed Systems' Level Changes	190

16	Chronic Pain in Injured Workers	193
	<i>Douglas P. Gross, Martin Mrazik, and Iain Muir</i>	
16.1	Introduction	193
16.2	Background	194
16.2.1	Epidemiology	194
16.2.2	Healthcare Seeking Behavior	194
16.2.3	Work Disability	195
16.3	Characteristics of Workers in Pain	195
16.3.1	Demographic Factors	195
16.3.2	Psychological Factors	195
16.3.3	Workplace Factors	196
16.3.4	Workers' Broader Contexts	197
16.4	Role of Compensation/Insurance Systems	197
16.5	Management Strategies	198
16.5.1	Continuums of Care	198
16.5.2	Psychologically-Based Interventions	198
16.5.3	Disability Management Model	199
16.6	Conclusions	200
17	Chronic Pain and Addictions	205
	<i>Katherine Diskin and Nady el-Guebaly</i>	
18	Chronic Pain in Children	211
	<i>Bruce Dick</i>	
18.1	Scope and Historical Context	211
18.2	Overview/Review of the Literature	212
18.3	What Public (Health) Policies Would Enable Better Care/Outcomes for Patients, Families and Communities?	213
18.4	Conclusions	214
19	Chronic Pain in Elderly Persons	217
	<i>Thomas Hadjistavropoulos and Gregory P. Marchildon</i>	
20	Chronic Pain in Indigenous Populations	225
	<i>Louise Crane</i>	
Part Four	Health Systems and Chronic Pain Management	231
21	Mass Media Campaigns for the Prevention of Back Pain-Related Disability	233
	<i>Rachelle Buchbinder, Douglas P. Gross, Erik L. Werner, and Jill A. Hayden</i>	
21.1	Introduction	233
21.1.1	Primary Prevention	234
21.1.2	Why Public Health Campaigns?	235
21.2	Methods	236
21.3	Mass Media Campaigns for Back Pain	236

21.3.1	The Victoria WorkCover Authority Back Campaign, Australia, 1997–1999	241
21.3.2	The Working Backs Scotland Campaign, Scotland, 2000–2003	242
21.3.3	The Norwegian Back Pain Network “Active Back” Campaign, Norway, 2002–2005	243
21.3.4	The Alberta “Back@It” Campaign, Canada, 2005–2008 (ongoing)	245
21.4	Considering the Design and Evaluation of Back Pain Media Campaigns	246
21.5	Conclusion	250
22	Improving Pain Management Education	255
	<i>Elizabeth Peter and Judy Watt-Watson</i>	
22.1	Pre-Licensure Educational Initiatives: Existing Data	256
22.2	Post-Licensure Educational Initiatives: Existing Data	257
22.3	Policy Initiatives Internationally	258
22.4	Policy Strategies: Pre-Licensure Competencies	258
22.5	Policy Strategies: Post Licensure	260
23	The Alberta Chronic Pain Ambassador Program	265
	<i>Paul Taenzer, Donald Schopflocher, Saifudin Rashiq, and Christa Harstall</i>	
23.1	Health Technology Assessment and Knowledge Translation	266
23.2	Description of the Program	266
23.3	Credible and Reliable Research Evidence	268
23.4	What Were the Outcomes?	269
23.5	Limitations	269
23.6	What Is in the Future?	270
24	Health System Organization	273
	<i>Patricia L. Dobkin and Lucy J. Boothroyd</i>	
24.1	Health System Organization and Care Pathways	274
24.2	Two Jurisdictions That Have Prioritized Management of Chronic Pain	275
24.3	Structure Elements in the Example Jurisdictions	277
24.4	Training of Healthcare Providers	278
24.5	Process Elements in the Example Jurisdictions	278
24.5.1	Referral	278
24.5.2	Inter-Discipline and Inter-Level Communication	279
24.5.3	Coordination of Care	279
24.5.4	Discharge and Continuity of Care Plans	280
24.5.5	Use of Innovative Technology	280
24.6	Evaluation	280
24.6.1	Program Implementation	280
24.6.2	Process Evaluation	281
24.7	Monitoring Patient Outcomes	282

24.8	Is There Evidence for Chronic Pain Patient Improvements?	283
24.9	Conclusions	284
24.9.1	Structure	284
24.9.2	Process	284
24.9.3	Outcomes	285
25	The Quebec Experience	291
	<i>Pierre Bouchard</i>	
25.1	Context	292
25.2	Elements That Helped to Germinate the Québec Strategy	293
25.3	The Advocated Development Strategy	294
25.3.1	Define An Optimal Vision of the Organization of Services	294
25.3.2	Validate this Vision with the Various Stakeholders to Ensure Its Relevance, Practicality and Accuracy	297
25.3.3	Inform Decision Makers of the Advocated Organizational Parameters and the Relevant Recommendations for Action	297
25.3.4	Prepare an Operational Plan to Progressively, Systematically and Carefully Implement. The Vision and Selected Recommendations into the Network of Services and Ensure that Monitoring Mechanisms Are Put in Place	298
25.3.5	Gradually Put Quality-Assurance and Continual-Improvement Mechanisms in Place for the Services Offered	299
25.4	Observations and Avenues for Future Action	299
25.5	Conclusion	301
	Conclusion – The Way Forward	303
	<i>Paul Taenzer, Donald Schopflocher, Saifudin Rashid, and Egon Jonsson</i>	
	Improving Chronic Pain Management in Alberta – Policy Considerations	305
	Monitoring	306
	Prevention	306
	Treatment Services	306
	Education	307
	Research	307
	Index	309
