

May 30, 1988 -

What a delight to meet Professor Nozoe again - always an inspiration!

I am now working on covalently attached DNA/RNA cross sections, which are fluorescent probes of the dimensional requirements of the H-bonded cross sections:

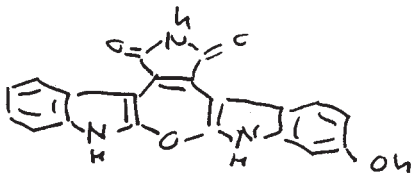

Nelson Leonard  
University of Illinois

Deed Done

It's a great pleasure to contribute an oxepin compound from slime moulds to Professor Nozoe's boots!

Acropoxepin B
