

10 π -Tropones ✓
 10 π -Tropolones ?
 etc.

Herrn Professor Nozoe Danke für einen
 „beflügelten“ Besuch!

E. Vogel

I'm delighted to return to Japan, after nine years' absence, and
 to visit you in the Department which your work on tropolone
 and other odd-ring compounds, has made world-famous.

Adrien Albert, Canberra, Australia.

Shifting hydration of pteridines

Sendai: 29th October, 1966.
