一九五六年十一月五日

May 28, 1956

After three years we meet again however
on opposite shores. I hope that you'll be
able to see me in the states this time

Yours truly
Yoshio Sato

July 6 1956 -

How nice to see you again in your own
Laboratories and to discuss chemical
problems with you and your staff. I hope
we will be able to continue this fine
association, with my best regards.

Robert F. Cuffaut.
(Philadelphia, Pa.).

Friday the 13th of July, 1956

This is my lucky day - to be here in Sendai and
to learn from Professor Nozoe and his colleagues about
their wonderful work on tropolones and related compounds.
I wish them much success in the future! It is nice
to feel that I have new friends here. May we meet
again often!

Maurice L. Higgins

(On leave from Eastman Kodak Co.)

Fulbright Visiting Professor, Osaka
and Kyoto Universities, 1955-6.
