Unique Service for ChemPubSocEurope Journals: Video Abstracts

Get a professional video abstract for your article and boost the visibility of your research and make published articles more comprehensible to a broad audience.

These video abstracts are prepared by an external vendor, *Research Square*. They produce a custom video that includes voiceover, animation, images, and text. In addition, authors receive a custom toolkit with tips on how to disseminate it for maximum exposure.

Special Offer:

ChemPubSoc Europe is sponsoring 20 video abstracts for authors from EurJIC and EurJOC for research articles that are accepted from mid August. **Submit now and enter for a free video abstract for your article.**

For more information please contact:

EurJIC@wiley-vch.de
