

## Perspectives in Clinical Proteomics

18–19 March 2010

### *Translating clinical proteomics into clinical practice*

This conference will focus on the current status of clinical proteomics, from reviewing the state of the art in study design and proteomics technology as applied to specific disease areas, through to its potential in biomarker discovery, diagnostics, as well as therapeutic implications. The goal of this conference is to discuss the most effective ways in which proteomic discoveries can be integrated with current clinical laboratory medicine for the benefit of the patient.

Sessions will include:

- Improving patient care – considerations and perspectives
- state of the art and emerging proteomic biomarkers in selected areas
- translating a biomarker into clinical use – what does it take?

#### VENUE

Wellcome Trust Conference Centre  
Wellcome Trust Genome Campus  
Hinxton, Cambridge, UK

**Please note** that a 2 day training workshop will be taking place prior to the conference, 17 – 18 March 2010. For full details of both events, please visit:

**[www.wellcome.ac.uk/conferences](http://www.wellcome.ac.uk/conferences)**

#### SCIENTIFIC PROGRAMME COMMITTEE:

**Rolf Apweiler** EBI - EMBL, UK

**Roz Banks** University of Leeds, UK

**Mike Dunn** UCD Conway Institute of Biomolecular and Biomedical Research, Ireland

**Scott Patterson** Amgen Inc., USA

**Jennifer Van Eyk** Johns Hopkins University, USA

#### SPEAKERS INCLUDE:

**Doug Altman** CRUK, UK

**Leigh Anderson** Plasma Proteome Institute, USA

**Anne Cambon-Thomsen** CNRS, France

**David Carbone** Vanderbilt, USA

**Mark Knepper** NIH, USA

**Piotr Lewczuk** Erlangen University, Germany

**Scott Patterson** Amgen Inc., USA

**David Ransohof** University of North Carolina, USA

**Harry Rittenhouse** Gen-Probe, USA

**Cathie Sturgeon** Edinburgh, UK

**Jennifer Van Eyk** Johns Hopkins University, USA

**Han Van Krieken** Radboud University, The Netherlands

**David Veenstra** Washington University, USA

#### DEADLINES

Abstract deadline: **Monday 1 February 2010**

Registration deadline: **Monday 22 February 2010**
