"Today, physica status solidi has become the most comprehensive and highly rated journal in the field worldwide."

pss Founding Editor K. W. Böer, "The Life of the Solar Pioneer", Xlibris Corp 2010

"Congratulations to the editors and staff of physica status solidi who have created an excellent instrument for the dissemination of scientific information. In a rapidly developing field, our papers in pss have been some of our most highly cited."

David C. Look, Wright State University

"pss is one of the few world-wide recognized scientific journals dedicated to general solid state science."

Hans Kuzmany, University of Vienna
