The essays explain the historical role of spirituality - from the founding of Islam, to the rise of Sufism, through to present day concerns. They cover key expressive and performative dimensions of Islamic spirituality, including religious practice, texts, architecture, music, poetry, and politics. In addition, the contributors discuss contemporary debates and issues affecting spirituality, such as the internet, social justice, the role of women, ethics, and terrorism. From the personal to the political, the essays in this volume offer a revitalized view of all aspects of spirituality in Islam.</p>
